

Open Water Winter Rates at Dive World (January and February) for the low cost of \$199.95 which includes most everything: all class materials, including books, all major equipment – including wet suits and hood for the four checkout final dives. Dive World has on-site a heated indoor training pool for your convenience. There's no hidden charges at Dive World; however, there are two things that are needed: (1) One would need to buy, rent, or supply their mask, fins, snorkel, and booties. Dive World is very competitive on prices, and one also receives a student discount on these items. (2) There is a small park fee or boat fee for Open Water checkouts. Classes can be paid for to get the special winter rates and your course date can be set up for a later time – within one year.

Please note: Dive World does many different certifications up through becoming an Instructor and we will beat or match any local prices for scuba classes or scuba equipment. Dive World is proud to be on our 21st year in business!

For those that are hesitant, we do offer a Discover Scuba for \$20. This gets you underwater and shows you how fun, safe and enjoyable diving is! We have certified many people as young as 10 years of age, also many Boy Scouts in which some have gone to a diving camp in Florida called Sea Base. It's amazing how easy it really is to become certified!

We hope to see you soon!
